Laundry Detergent Sachet

Page 1 Compilation Date: 1 May 2022 Issue Date: 1 May 2022 Revision No: 2.1

1. Chemical Product and Company Identification

Product Name Other Means of Identification Product Code Product Use	Laundry Detergent Sachet None 20Gr: AA-LP20G; 50Gr: AA-LP50G Laundry Powder Sachet
Supplier ABN Mail Address Email Telephone:	Accom Assist 94 927 761 973 27/136 Stringybark Road, Buderim QLD, 4556 info@accomassist.com.au 1300 307 755
Emergency Telephone:	Poisons Information Centre (National) 131126

2. Hazards Identification

Classification of the substance or mixture

HAZARDOUS CHEMICAL. NON-DANGEROUS GOODS. According to the WHS Regulations and the ADG Code.

Poisons Schedule	None
GHS Classification GHS Label Elements	Accute Toxicity: 4 Skin Irritation: 2 Eye Damage: 1
SIGNAL WORD	DANGER
Hazard Statement(s)	
H302 H315 H318	Harmful if swallowed. Causes skin irritation. Causes serious eye damage
Prevention(s)	
P264	Wash contaminated skin thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P280	Wear protective gloves/ protective clothing/ eye
Pag	le 1 of 9 Laundry Detergent Sachet SDS Version 2.1 Created 1 May 2022

Laundry Detergent Sachet

protection/ face protection.

Response	
P301+P312	IF SWALLOWED: Call a POISON CENTER or doctor/ physician if you feel unwell.
P302+P352	IF ON SKIN: Wash with plenty of soap and water.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes.
	Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER or doctor/ physician.
P321	Specific treatment (see medical advice on this label).
P330	Rinse mouth
P332+P313	If skin irritation occurs: Get medical advice/ attention.
P362+P364	Take off contaminated clothing and wash before reuse.
Storage	
P405	No special precautions
Disposal	
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.

Contains: Sodium Carbonate

Other hazards: This product does not contain any substances classified as PBT or vPvB.

3. Composition/Information on Ingredients

(Listed when present at 1% or greater, carcinogens at 0.1% or greater)

Chemical Name	CAS Registry Number	% Weight	Hazard Classification
Sodium Carbonate	497-19-8	>90	H318: Causes serious eye damage. H335: May cause respiratory irritation.
Coconut Diethanolamide	68139-30-0	<0.5	H319: Causes serious eye irritation
Other ingredients classified as non hazardous at the concentrations used according to the criteria of safework Australia			

Laundry Detergent Sachet

4. First Aid Measures

Canaral	Cat madical attention if any discomfart continues. Chauthis
General	Get medical attention if any discomfort continues. Show this Safety Data Sheet to the medical personnel. Chemical
	burns must be treated by a physician.
Inhalation	Move affected person to fresh air and keep warm and at
Innalation	rest in a position comfortable for breathing. Maintain an
	open airway. Loosen tight clothing such as collar, tie or belt.
	Rinse nose and mouth with water. Never give anything by
	mouth to an unconscious person. Get medical attention if
	symptoms are severe or persist.
Skin	Rinse with water
Eyes	Rinse immediately with plenty of water. Do not rub eye.
	Remove any contact lenses and open eyelids wide apart.
	Continue to rinse for at least 15 minutes and get medical
	attention.
Ingestion	Rinse mouth thoroughly with water. Give a few small
	glasses of water or milk to drink. Stop if the affected person
	feels sick as vomiting may be dangerous. Get medical
	attention.
Protection of first aiders	First aid personnel should wear appropriate protective
	equipment during any rescue.
Most important symptoms a	nd effects, both acute and delayed
General information	The severity of the symptoms described will vary dependent on the
	concentration and the length of exposure.
Inhalation	No specific symptoms known.
Ingestion	May cause discomfort if swallowed. Stomach pain. Nausea,
	vomiting.
Skin contact	Redness. Irritating to skin.
Eye contact	Causes serious eye damage. Symptoms following overexposure
	may include the following: Pain. Profuse watering of the eyes.
	Redness.

Indication of any immediate medical attention and special treatment needed Treat symptomatically.

5. Fire Fighting Measures

Extinguishing Media Unsuitable extinguishing media	The product is not flammable. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire- extinguishing media suitable for the surrounding fire. Do not use water jet as an extinguisher, as this will spread the fire.
Advice for firefighters	
Fire Fighting Page	Avoid breathing fire gases or vapours. Evacuate area. Keep upwind to avoid inhalation of gases, vapours, fumes, and smoke. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. Avoid discharge to the aquatic environment. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution e 3 of 9 Laundry Detergent Sachet SDS Version 2.1 Created 1 May 2022

Laundry Detergent Sachet

Special protective equipment for firefighters	occurs, notify appropriate authorities. Regular protection may not be safe. Wear chemical protective suit. Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to Australia/New Zealand Standards AS/NZS 4967 (for clothing) AS/NZS 1801 (for helmets), AS/NZS 4821 (for protective boots), AS/NZS 1801 (for protective gloves) will provide a basic level of
	protection for chemical incidents.

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal precautions	Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk.
Environmental precautions	Avoid discharge into drains or watercourses or onto the ground. Avoid discharge to the aquatic environment.
Methods for cleaning up	Wear protective clothing as described in Section 8 of this safety data sheet. Clear up spills immediately and dispose of waste safely. This product is corrosive. Collect spillage with a shovel and broom, or similar and reuse, if possible. Collect and place in suitable waste disposal containers and seal securely. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dangerous for the environment. Do not empty into drains. For waste disposal, see Section 13.
Reference to other sections	For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13. Slippery when spilt.

Personal Protective Equipment advice is contained in Section 8 of the SDS.

7. Precautions for handling and storage

Precautions for safe handling

Precautions for Safe Handling	Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep	
Handing	away from food, drink and animal feeding stuffs. Keep container	
	tightly sealed when not in use. This product is corrosive. Immediate first aid is imperative. Avoid discharge to the aquatic environment.	
	Do not handle until all safety precautions have been read and	
	understood. Do not handle broken packages without protective equipment. Do not reuse empty containers.	
Other Information	Wash promptly if skin becomes contaminated. Take off	
	contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.	
	clothing before reuse.	
	, including any incompatibilities	
Suitable containers	Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage.	
Page 4 of 9 Laundry Detergent Sachet SDS		

Page 4 of 9 Laundry Detergent Sachet SDS Version 2.1 Created 1 May 2022

Laundry Detergent Sachet

Storage class

Toxic storage.

8. Exposure controls /personal protection

Protective equipment

Appropriate engineering controls Eye/face protection	Provide adequate ventilation. Observe any occupational exposure limits for the product or ingredients. Wear tight-fitting, chemical splash goggles or face shield. If inhalation hazards exist, a full-face respirator may be required instead.
Hand protection	Wear protective gloves. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. To protect hands from chemicals, gloves should comply with Australia/New Zealand Standard AS/NZS 2161. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes are recommended.
Other skin and body protection	Wear appropriate clothing to prevent any possibility of skin contact. protection.
Hygiene measures	Wash hands thoroughly after handling. Wash at the end of each work shift and before eating, smoking, and using the toilet. Do not eat, drink or smoke when using this product.
Respiratory protection	Ensure all respiratory protective equipment is suitable for its intended use and complies with Australia/New Zealand Standard AS/NZS 1716. Check that the respirator fits tightly, and the filter is changed regularly. Gas and combination filter cartridges should comply with Australia/New Zealand Standard AS/NZS 1716. Full face mask respirators with replaceable filter cartridges should comply with Australia/New Zealand Standard AS/NZS 1716. Half mask and quarter mask respirators with replaceable filter cartridges should comply with Australia/New Zealand Standard AS/NZS 1716. Half mask and quarter mask respirators with replaceable filter cartridges should comply with Australia/New Zealand Standard AS/NZS 1716.
Environmental exposure controls	Keep container tightly sealed when not in use. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

9. Physical and chemical properties

Information on basic physical and chemical properties

Appearance:	Medium density powder	
Colour:	Blue	
Odour:	Fragrant 1.02	
Specific gravity:	1.02	
Page 5 of 9 Laundry Detergent Sachet SDS		
	Version 2.1 Created 1 May 2022	

Laundry Detergent Sachet

Solubility value g/100g H₂O 20°C:

Soluble in water.

10. Stability and Reactivity

Reactivity Stability	There are no known reactivity hazards associated with this product. Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.
Possibility of Hazardous Reaction	No potentially hazardous reactions known.
Conditions to Avoid	There are no known conditions that are likely to result in a hazardous situation.
Incompatible Materials	No specific material or group of materials is likely to react with the product to produce a hazardous situation.
Hazardous	Does not decompose when used and stored as recommended.
Decomposition Products	Thermal decomposition or combustion products may include the following substances: Corrosive gases or vapours.

11. Toxicological information

Acute toxicity - oral Notes (oral LD50)	No toxicity data is available for this material	
Acute toxicity - dermal Notes (dermal LD50)	Based on available data the classification criteria are not met.	
Acute toxicity - inhalation	Based on available data the classification criteria are not met.	
Notes -(inhalation LC50) Skin corrosion/irritation Animal data	Irritating.	
Serious eye damage/irritation	Eye Damage 1 - H318 Causes serious eye damage.	
Respiratory sensitisation	Based on available data the classification criteria are not met.	
Skin sensitisation	Based on available data the classification criteria are not met.	
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.	
Carcinogenicity	Based on available data the classification criteria are not met.	
IARC carcinogenicity	None of the ingredients are listed or exempt.	
Reproductive toxicity - fertility	Based on available data the classification criteria are not met.	
Reproductive toxicity - development	Based on available data the classification criteria are not met.	
Charlie torget ergen tovicity		
Specific target organ toxic STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.	
STOT - repeated exposure	Not classified as a specific target organ toxicant after repeated exposure.	
Aspiration hazard	Not relevant. Solid.	
General Information	The severity of the symptoms described will vary dependent on the	
Page 6 of 9 Laundry Detergent Sachet SDS		

Page 6 of 9 Laundry Detergent Sachet SDS Version 2.1 Created 1 May 2022

Laundry Detergent Sachet

	concentration and the length of exposure.
Inhalation	No specific symptoms known.
Ingestion	May cause discomfort if swallowed. Stomach pain. Nausea, vomiting.
Skin	Redness. Irritating to skin.
Eye	Causes serious eye damage. Symptoms following overexposure may include the following: Pain. Profuse watering of the eyes. Redness.
Route of entry	Ingestion Inhalation Skin and/or eye contact
Target organs	No specific target organs known.

12. Ecological information

Ecotoxicity	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.
Persistence/Degradabilit v	The degradability of the product is not known.
, Bio-accumulative Potential	No data available on bioaccumulation.
Mobility in Soil	No data available
Results of PBT and vPvB assessment	
Other adverse effects	None known

13. Disposal considerations

General information	The generation of waste should be minimised or avoided wherever possible. Reuse or recycle products wherever possible. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered. Care should be taken when handling emptied containers that have not been thoroughly cleaned or rinsed out. Empty containers or liners may retain some product residues and hence be potentially hazardous.
Disposal methods	Dispose of surplus products and those that cannot be recycled via a licensed waste disposal contractor. Waste, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated containers, labelled with their contents. Incineration or landfill should only be considered when recycling is not feasible.

14. Transport Information

UN Number

Not applicable **Proper shipping name** Not applicable **Transport hazard class(es)**

> Page 7 of 9 Laundry Detergent Sachet SDS Version 2.1 Created 1 May 2022

Laundry Detergent Sachet

No transport warning sign required.

Packing group

Not applicable

Environmental hazards

Environmentally hazardous substance / marine pollutant: No.

Special precautions for user

Not applicable

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: Not applicable.

15. Regulatory Information

Safety, health, and environmental regulations/legislation specific for the substance or mixture Inventories

AICS

None of the ingredients are listed or exempt.

16. Other information

Training advice General Information	Only trained personnel should use this material. The following risk and hazard statements are to be considered a glossary. They relate to the raw materials used in this product and therefore may not be accurate for the finished product itself. For the complete risk and hazard statements for this product please refer to section 2 of this Safety Data Sheet
Hazard statements in full	H272 May intensify fire; oxidizer. H290 May be corrosive to metals.
	H302 Harmful if swallowed.
	H314 Causes severe skin burns and eye damage.
	H315 Causes skin irritation.
	H318 Causes serious eye damage.
	H335 May cause respiratory irritation
Abbreviations	
AICS	Australian Inventory of Chemical Substances
CAS Number	Unique Chemical Abstracts Service Registry Number
EC50	Ecotoxic Concentration 50% — concentration in water which is
50	fatal to 50% of a test population (e.g. daphnia, fish species)
ES	Exposure Standard - The airborne concentration of a biological or chemical agent to which a worker may be exposed in a workday
GHS	Globally Harmonised System of Classification and Labelling of
	Chemicals
HAZCHEM Code	Emergency action code of numbers and letters that provide information to emergency services, especially fire fighters
IARC	International Agency for Research on Cancer
LEL	Lower Explosive Limit
LD50	Lethal Dose 50% — dose which is fatal to 50% of a test
	population (usually rats).
LC50	Lethal Concentration 50% — concentration in air which is fatal to
	50% of a test population (usually rats) National Industrial Chemicals Notification and Assessment
NICNAS	Scheme
	·
