

BioEnzyme Urine Destainer & Deodoriser

DESCRIPTION & BENEFITS

BioEnzyme Urine Destainer & Deodoriser is powered by natural multi-enzyme technology with biodegradable surfactants. A completely natural alternative which is; biodegradable, non-bacterial, non-hazardous, non-toxic, non-corrosive, non-flammable. With a higher concentration of enzymes compared with competitors, **BioEnzyme Urine Destainer & Deodoriser** contains a soap-free multi-enzyme formula designed to effectively remove urine stains, odours and deposits from all surfaces. Effectively works on human urine, dog urine and cat urine. The formula penetrates the uric acid crystals, removing both the urine stain and odour for good. Ideal for aged care facilities, child care facilities, pet owners and general urine prone problem areas.

- ✓ More concentrated than competitive products
- ✓ Eliminates odours by destroying the source of the problem
- ✓ Plant based enzymes for faster action
- ✓ Long-lasting performance
- ✓ pH neutral
- ✓ Urinal cleaner and deodoriser
- ✓ Can be used in porta-loos, camp sites, waterless and flushing toilets
- ✓ Broad spectrum of enzymes

DIRECTIONS FOR USE

Ready to use. Shake well before use. Spray liberally on affected areas.

If there is a strong odour, let the product stand for 5-10 minutes.

Wipe the area down with a micro fibre cloth to remove excess product and the stain.

Urinals: Spray the surface to be cleaned, let the product stand for 2-5 minutes, this will allow it to work on the urine and uric crystals. Use a brush to scrub off old build-up.

Once all the old build-up has been removed, use as a spray and wipe to maintain cleanliness of the surface.

Code No 895

ENVIRONMENTAL ASPECTS

- ✓ Biodegradable Surfactants
