- Highly Concentrated and Economical
- Eliminates Water Spotting
- Safe on Metals and Plastics
- Dramatically Reduces Drying Time
- Use with Automatic Dispensing Equipment

K6 KITCHEN

Safe for food preparation areas

**Australian
Made & Owned**

RINSE PLUS

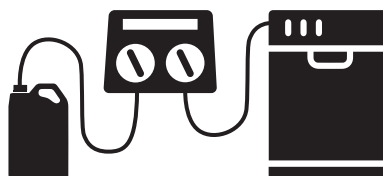

Rinse Plus is a drying agent which dramatically reduces the drying time of machine washed articles and improves the finished appearance of crockery, glassware and cutlery by eliminating water spotting. Rinse Plus is formulated especially for use with automatic dispensing equipment.

FEATURES & BENEFITS

- Effective in hard or soft water and eliminates spotting and streaking
- Safe on metals and plastic-ware and contains an anti-scaling agent.
- Economical to use and colour coded for safety and identification

DIRECTIONS FOR USE

Rinse Plus is injected into the final rinse water on all machines by the use of highly specialised electronic dosing equipment that injects the correct amount of product each time the rinse cycle is activated. Use strictly as directed by washing machine manufacturer. For best results water should be at least 82°C.

SUITABILITY OF CHEMICAL FOR FOOD PREPARATION AREAS

When used as directed Rinse Plus is suitable for use in kitchens and food preparation areas.
