

GROTOFF

Grot off is a heavy duty, quick break, multipurpose degreaser and cleaner. Complies with the **Australia New Zealand Food Standards Code Standard 1.3.3 S18-3** as a processing aid when used according to **Directions For Use** and rinsed off well. It cleans painted surfaces, glass, chrome, stainless steel, plastic, vinyl, or porcelain. The quick break formulation has been specially designed for the quick removal of grease, oils and dirt from all types of heavy machinery, vehicles, concrete floors, benches and equipment. It is ideal for counter tops, walls and floors in commercial cleaning and is suitable on most types of metals and painted surfaces, yet due to its powerful nature it should be spot tested prior to use.

DIRECTIONS FOR USE

Pre clean any excess oil spills with appropriate rags, brooms or absorbent material. Dilute Grot off in hot or cold water and apply to the surface by swab, spray, mop, scouring brush or high pressure hot or cold water blasters. If foaming occurs an automatic scrubber and defoamer may be used. As with all alkaline cleaners a thorough post clean rinse with clean water is required.

Light Duty Cleaning:

Dilute 1 part in 50 parts

Medium Duty Cleaning:

Dilute 1 part in 40 parts

Heavy Duty Cleaning:

Dilute 1 in 15 to 1 in 20.

For really heavy duty cleaning Grot off can be used at 1 in 5 or neat.

Extreme caution and spot testing is a must prior to use.

SAFETY NOTES

Grot off can irritate the eyes and being a heavy duty detergent, can defat the skin through prolonged or repeated exposure. Gloves and eye protection are recommended. Consult Safety Data Sheet for further information.
